

Dear House and Senate Leadership,

America's farmers and ranchers commend your work to assist Americans affected by the coronavirus. As they work to ensure that the necessities of life such as food, feed, fuel, and fiber continue to be produced, we urge you to ensure that they have the necessary support in these very trying times.

Farmers, ranchers and the supply chain that support them will not let Americans down during this unprecedented crisis and they are asking the same of you. Millions of producers will need help with cash flow given the rapid and unanticipated decline in commodity prices, the likely closure of ethanol processing plants, the effective elimination of direct-to-consumer sales and decline in full-service restaurant and school meal demand. Congress must have farmers' and ranchers' back by expanding and replenishing USDA's borrowing authority under the Commodity Credit Corporation (CCC).

Farmers and ranchers are proud to be trusted to feed nearly 330 million Americans and we'll continue working every day to do so, but Congress must ensure the CCC has ample authority and funding to help farmers and ranchers survive during this emergency. The inclusion of these provisions would ensure the Secretary of Agriculture has the tools needed to meet this crisis head-on for all of agriculture.

We respectfully urge you to address these vital needs in the relief package you are developing now.

Thank you for your consideration.

Sincerely,
